

“I’m free!”

FINALLY—break free from your laptop.

Project engaging PowerPoint presentations directly from your BlackBerry with Impatica ShowMate.

Always have PowerPoint™ at the tips of your thumbs.

Impatica ShowMate is the most powerful presentation tool you'll ever own. Compact, lightweight and easy to use, the revolutionary ShowMate enables you to connect your BlackBerry® handheld device to a projector and present compelling PowerPoint presentations wherever you go.

Engage your audience with the same dynamic presentations once only possible from your computer. Your ShowMate will deliver the full impact of your graphics, animations and slide transition effects. And it's so small and light you'll never leave it behind.

After all, who wants to be tethered to a laptop forever?

How it Works

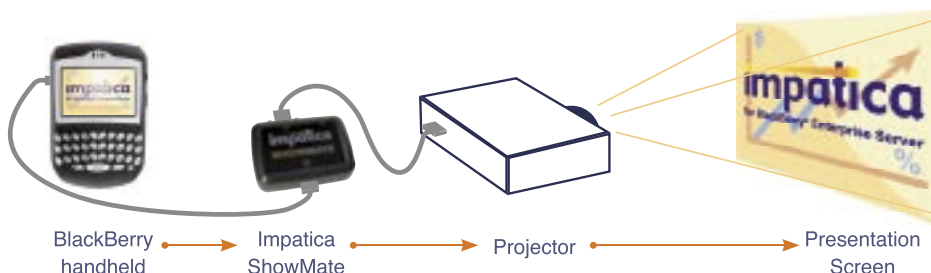

Impatica ShowMate displays presentations loaded onto the BlackBerry with:

- Impatica for BlackBerry Enterprise Server, a server-based software solution for viewing PowerPoint e-mail attachments on BlackBerry *and*
- Impatica for PowerPoint BlackBerry Edition, a desktop-based software tool for converting PowerPoint presentations for viewing on BlackBerry.

Users simply connect the ShowMate to their BlackBerry and a projector, and are then ready to present. To get the show started, users open

a PowerPoint e-mail attachment, or select a presentation that they have already saved to the handheld. The PowerPoint slides are displayed on the projector screen. Text, graphics, charts, graphs and even advanced animations and transition effects are shown in full fidelity. The BlackBerry handheld becomes an easy-to-use remote, allowing the user to navigate through the presentation while viewing a slide list, text or notes.

With BlackBerry and ShowMate, slide show presentations deliver the same impact with the power and convenience of true mobility.

Product Features

Impatica ShowMate is a simple, compact device that makes presenting to your audience easy.

Easy to use:

- Features plug-and-present simplicity
- Displays all PowerPoint slide attributes including animation and transition effects
- Uses BlackBerry handheld as a remote control
